Plates and Mould Bases

**DESIGNED BY YOU,
MACHINED BY US.**

OptiMach®

About OptiMach®

Introducing the newest name in our portfolio: OptiMach® Mould Bases. Designed by you, machined to the highest quality and precision by us!

Mould bases and special parts from OptiMach® combine quality, precision, price and short delivery times in one package to ensure maximum performance and lifetime of your moulds. Whether for small, low volume prototype moulds or high cavity, long running moulds our mould bases give you the quality and accuracy you need to achieve superior results.

Upgrade your moulding process with our state-of-the-art bases and experience enhanced efficiency and quality in every run. Ideal for all injection moulding and die casting applications, these mould bases are the new benchmark in the field.

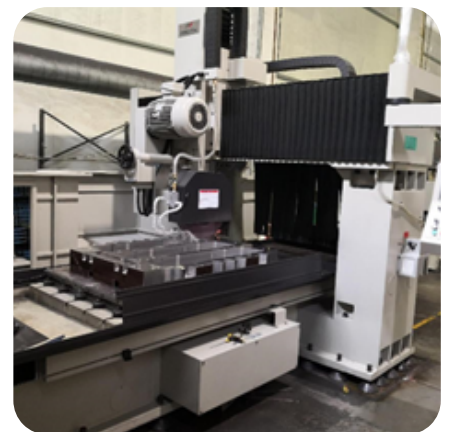

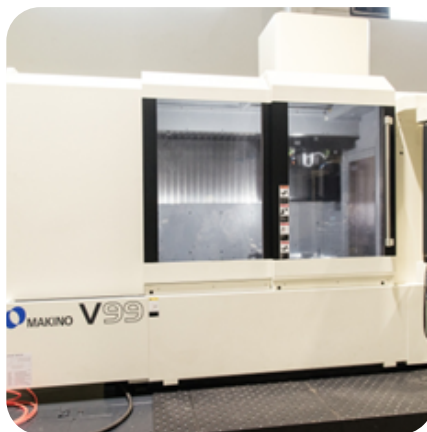

OptiMach® - the perfect partner for your high precision mould base!

OptiMach®
